Carolina Gazette.

From MONDAY *December* 3d, to MONDAY *December* 10th, 1750.

KINGSTON in *JAMAICA*, *September* 22.

On Tuesday the 17th Inst. the Hon. Assembly of this Island being met, according to the last Prorogation, his Excellency commanded their Attendance in the old Council-Chamber, after which he was pleased to make the following Speech.

Gentlemen of the Council, Mr. Speaker, and Gentlemen of the Assembly.

I Doubt not but you are all met with the best dispositions to enter into such measures as may establish your own safety and promote the honour and interest of your Country. Some of your acts will want to be renew'd and others to be fram'd as the circumstances of the Island may require; to which you will, in all your proceedings, pay a strict regard, and I promise myself, have nothing in view but the publick good. And to that end, it may be worthy your most serious consideration, to find out the cause of the great want of currency, or what is commonly call'd light money, so much complained of at present; and to apply, if possible, a remedy to an evil which is attended with bad consequences, and seems to threaten some mischief to the trade and credit of this Island.

Mr. Speaker and Gentlemen of the Assembly.

You are now in a time of peace and have no foreign attempts to apprehend; but as the experience of former times has taught us not to be too secure of the duration of tranquillity, so common prudence calls upon you to make use of this as the most fit juncture to provide for your own safety, the main design of all society and government. I therefore recommend to you the compleating your Fortifications, and which I hope may be done with ease and without laying any great burthen upon the people.

I must also recommend to you the providing for the opening such publick Roads, as against the times of war and danger, may be necessary for a ready and speedy communication from and to the distant parts of the Island; and for such other services as the publick welfare may require.

Gentlemen of the Council, Mr. Speaker, and Gentlemen of the Assembly.

LET me recommend to you in all your debates of this Sessions that temper and spirit which becomes the wisdom of a legislature. Let your bills be prepared with a manifest tendency to his Majesty's service and the true interest of your country, and you may be assured they will readily meet with my assent, and in due time with his Majesty's approbation.

South-Carolina.

By His Excellency JAMES GLEN, Esq; *Captain General, Governor and Commander in Chief, in and over his Majesty's said Province.*

A PROCLAMATION.

WHEREAS his most Sacred Majesty has been graciously pleased to give his Royal Assent to the third Session of this Parliament to an Act to encourage the Importation of Bar Iron, wherein among other Things it is Enacted, 'That from and after 'the 24th Day of *June* 1750, no Mill or other 'Engine for slitting or rolling of Iron, or any 'plating Forge to work with a Tilt Hammer, or 'any Furnace for making Steel, shall be erected, 'or after such Erection, continued in any of his 'Majesty's Colonies in *America*; and if any Person 'or Persons shall erect or cause to be erected, or 'after such Erection, continue, or cause to be continued, in any of the said Colonies, any such Mill, 'Engine, Forge, or Furnace, every Person or Persons 'so offending, shall forfeit the Sum of Two Hundred Pounds of lawful Money of *Great-Britain*, 'and that every such Mill, Engine, Forge, or Furnace 'so erected or continued, contrary to the Directions 'of this Act, shall be deemed a common Nuisance.'

AND WHEREAS I have received his Majesty's Command, transmitted to me by his Grace the Duke of *Bedford*, his Majesty's principal Secretary of State, to cause the same to be duly published and observed in this my Government: I have therefore issued this my PROCLAMATION, strictly requiring and commanding all Persons concerned to pay due Obedience to the same, as they will answer the contrary at their Peril. *Given under my Hand and the Great Seal of his Majesty's said Province, in the Council-Chamber at* Charles-Town, *the 4th Day of* December, *in the Year of our Lord one Thousand seven Hundred and fifty, and in the Twenty-fourth Year of his Majesty's Reign.*

By Capt. *Boyd*, who arrived here a few Days ago from *Jamaica*, we have the Pleasure to inform our Readers, that as good *Nutmegs* as those usually imported from the *East-Indies*, have been lately found to grow on the *Musquito*-Shore, a parcel having been brought from thence to *Jamaica* by the Person who found them: And that a Man of War (with a Tender) has been dispatch'd, by Governor *Trelawney*, for the said Shore, upon a further Discovery, &c.

Yesterday departed this Life, aged 62 Years, very much lamented, particularly by his Parishioners, and by every one who had the Pleasure of an Acquaintance with him, the Rev. Mr. *William Guy*, Rector of *St. Andrew's* Parish for upwards of 30 Years past. Of whom it may be truly said, *Mark the perfect Man, and behold the Upright: for the End of that Man is Peace.*

e plantation of *Kenneth Michie*, deceaſed, which
nged to *William Dry*, Eſq; on *Charles-Town* neck,
even miles from *Charles-Town*; the ſaid plantation con-
bout 864 acres of land, on which are a good dwelling-
nd ſeveral other convenient buildings, a good orchard
ed with the beſt variety of apple, pear, and other young
bearing fruit trees, and a very good garden.

There is a large and bold creek leading up from *Cooper-River* (which runs juſt by the ſaid plantation) to the landing; where the largeſt pettiagua, ſchooner or ſloop may, with the greateſt eaſe and ſafety, lye cloſe to the bluff.

A-croſs the ſaid creek, through the marſh, which belongs partly to *James Wright*, Eſq; and partly to the eſtate of the ſaid *Kenneth Michie*, was made ſome years ago, a large and ſubſtantial dam to keep out the tide, and which, with the neceſſary care and proper management and diligence uſed, has had the deſired effect, namely, to ſweeten and freſhen the ſalt (or the greateſt part thereof rather brackiſh) marſh, for the planting rice: And altho' there is yet a great quantity of that ſort of land adjoining unattempted, and which is not to be doubted may, and with very little trouble and expence, will become good rice land, yet there is from 80 to 100 acres (beſides ſeveral acres of valuable ſwamp) which will be fit to be planted next ſpring, ſome acres whereof two years ago were, by way of experiment planted with, and produced as good rice, as any made that year in this province; and being made on that part which was ſituated neareſt the ſalts, is a ſufficient and demonſtrative proof, that that land, eſpecially with the further and additional advantage which it will have had by next ſpring, of three years more freſhening, may with the greateſt certainty be then attempted with the ſtaple of rice. The high land belonging to the ſaid plantation, is very fit for corn, indigo and potatoes, and the paſturage inferior, 'tis imagined, to very few plantations in the pariſh.

There will be ſold, at the ſame time, a choice parcel of ſlaves, ſtock of cattle, horſes, ſheep and hogs, a quantity of corn, peaſe and potatoes, and plantation tools. *James Michie.*
